<b>BASE 1 CLOUD</b>
You fall as rain onto Mt. Dixon. Go to the mountain.
You fall as snow onto Mt. Dixon. Go to the mountain.
You fall as rain onto Coldwater Creek. Go to the creek.
You fall as rain onto the Gulf of Mexico. Go to the Gulf.
You fall as snow onto the Gulf. Go to the Gulf.
You fall as rain onto the playground. Go to Groundwater.

<b>BASE 2 MT. DIXON</b>
You are ice. You melt and evaporate into the air. Go to the cloud.
As rain you soak into the ground becoming part of the groundwater. Go to groundwater.
As rain you soak into the ground becoming part of the groundwater. Go to groundwater.
You are rain, roll down a hill and become part of the creek. Go to Coldwater creek.
You are rain, roll down a hill and become part of the creek. Go to Coldwater creek.
You freeze into ice and stay there. Remain at Mt. Dixon.

<b>BASE 3 GULF OF MEXICO</b>
You are one of many water droplets in the Gulf, and you stay there. Remain in the Gulf.
You are one of many water droplets in the Gulf, and you stay there. Remain in the Gulf.
You are one of many water droplets in the Gulf, and you stay there. Remain in the Gulf.
You are one of many water droplets. You evaporate into the air. Go to the cloud.
You are one of many water droplets. You evaporate into the air. Go to the cloud.
You are one of many water droplets. You evaporate into the air. Go to the cloud.

<b>BASE 4 COLDWATER CREEK</b>
You are a water droplet. You evaporate into the air. Go to the cloud.
You are a water droplet. You evaporate into the air. Go to the cloud.
You are a water droplet. You evaporate into the air. Go do the cloud.
You are part of the creek and continue flowing downhill and become part of the Gulf. Go to the Gulf of Mexico.
You are part of the creek and continue flowing downhill and become part of the Gulf. Go to the Gulf of Mexico.
You are part of the creek and continue flowing downhill and become part of the Gulf. Go to the Gulf of Mexico.

<b>BASE 5 GROUNDWATER</b>
You become part of an underground stream that flows to the Gulf. Go to the Gulf of Mexico.
You become part of an underground stream the flows to the Gulf. Go to the Gulf of Mexico.
You become part of an underground stream that flows into the creek. Go to Coldwater Creek.
You become part of an underground stream that flows into the creek. Go to Coldwater Creek.
You are pumped out of the ground to water the playground. You evaporate into the air. Go to the cloud.
You are pumped out of the ground to water the playground. You soak into the ground and become groundwater. Stay at groundwater.

# WATER CYCLE CHECKLIST

\_\_\_\_\_explains definition of the water cycle

\_\_\_\_\_explains how temperature influences the water cycle

\_\_\_\_\_tells what a landform is

\_\_\_\_\_lists landforms that influence the water cycle

\_\_\_\_\_explains how these landforms influence the water cycle

\_\_\_\_\_includes and uses words evaporation, precipitation, ground water, and condensation correctly in their writing

\_\_\_\_\_uses examples from the game in their writing
