

Getting Started on the Web

Select a search engine, i.e. www.google.com.

Utilize a selection of good keywords and apply quotations to initiate and narrow the search process. Practice the following example to search for *The Ten Commandments of Math* from the diagnostic assessment.

EXAMPLE: Select a search method, perform the following trials, and examine the results keeping in mind the objective.

- 1) Trial 1: Enter the word, *math*, and click **Search**.
- 2) Trial 2: Enter the word, *commandments*, and click **Search**.
- 3) Trial 3: Enter the words, *ten commandments*, and click **Search**.
- 4) Trial 4: Enter “the ten commandments of math” (include quotes), click **Search**.

Which of the series of keywords presented the best results and why?

NOTE: If you did not locate this information on the diagnostic assessment, print a copy for your portfolio.
