THINGS I KNOW	THINGS I WANT TO KNOW	THINGS I LEARNED

## K – W – L CHECKLIST

### Things I Know:

\_\_\_\_\_ defines photosynthesis

\_\_\_\_\_ defines chlorophyll

\_\_\_\_\_ explains the process of photosynthesis

\_\_\_\_\_ uses the terms carbon dioxide, water, sunlight, sugar, and oxygen

### Things I Want to Learn:

\_\_\_\_\_ lists three things they hope to learn from the demonstration

### Things I Learned:

\_\_\_\_\_ orange and yellow color is always present in the green leaf

\_\_\_\_\_ chlorophyll masks the orange and yellow color

\_\_\_\_\_ chlorophyll begins to disappear as the days get shorter

\_\_\_\_\_ the tree begins to “shut down” for the winter

## MY NATIVE AMERICAN LEGEND

Star gazing hunters from the little brave's tribe killed the Great Bear (a constellation) in the fall. This caused the bear's blood to drip on the forest and turn many of the trees red. Other trees turned yellow from the fat that dripped out of the kettle as the hunter cooked the bear meat. All rejoiced from the miracle that had occurred.

## LEGEND CHECKLIST

\_\_\_\_\_demonstrates an understanding of a legend

\_\_\_\_\_includes explanations for why the leaves change color

\_\_\_\_\_includes the colors orange and yellow

\_\_\_\_\_uses complete sentences

\_\_\_\_\_uses correct punctuation and spelling
