## Paragraph Checklist

	Name a process that changes landforms over time. <b>Example:</b> <u>Tornados</u> can change landforms over time.
	Tell if the process is a fast or slow process. <b>Example:</b> They can change them quickly.
	Give details about how this process changes landforms. <b>Example:</b> Tornados can be very powerful. They can move a lot of soil great distances.

### Example Paragraph:

Tornados can change landforms over time. They can change them quickly. Tornados can be very powerful. They can move a lot of soil great distances.
