

## Sample Word Problems

1. Hay veintitres animales en total. Hay un gato, cinco ranas, trece osos, y un tortuga. Cuantos animales son conejos?

Hay tres conejos.

2. Yo tengo una mochila. En mi mochila hay cinco libros. Hay siete manzanas. Cuantos cosas en total?

Hay doce cosas en total.

Note: The questions need an upside down question mark in the front of the question. Also, the “a” in “cuantos” needs an accent mark.

1. There are twenty-three animals in all. There is a cat, 5 frogs, thirteen bears, and a turtle. How many animals are rabbits?

There are 3 rabbits.

2. I have a backpack. In my backpack there are five books. There are seven apples. How many items are there in all?

There are twelve items in all.
