

ANTICIPATION GUIDE

Directions: Mark the appropriate statement True or False.

1. ____ A pregnant teen should expect to gain 50 pounds.
2. ____ A pregnant teen should eat a minimum of 4 servings from the meat group.
3. ____ While pregnant a teen should eat 300 more calories than when not pregnant.
4. ____ The number of calories is the only factor to consider while pregnant.
5. ____ Teen mothers-to-be are more at risk to having a low birth weight baby, than a woman in her 20's.
6. ____ A pregnant teen should eat 6-11 servings from the bread group.
7. ____ The average weight of a full term baby is 8 pounds.
8. ____ Empty calorie foods do not have any calories.
9. ____ If you take prenatal vitamins you do not have to worry about what you eat.
10. ____ 1 cup of fruit or vegetable juice is equal to 1 serving from the fruit/vegetable group.

If my baby will weigh 8 pounds, why should I gain 35 pounds?
