

## Inference T-Chart

(Model)

A farmer was milking his cow. He was just starting to get a good rhythm going when a bug flew into the barn and started circling his head. Suddenly, the bug flew into the cow's ear. The farmer didn't think much about it, until the bug squirted out into his bucket. It went in one ear and out the udder.

What it says...

What I think it means...

... in one ear and out the udder

in one ear and out the other
