

My Book about Day and Night

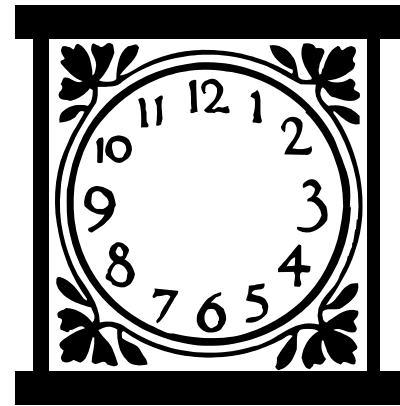

By

Dedicated to

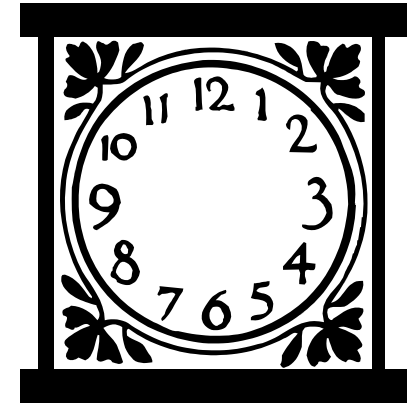

Burgess Publishing 2002

The Earth is always turning. Night follows day.

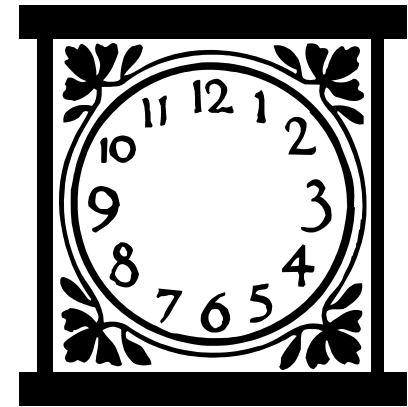

This is called rotation.

When I get up in the _____, I like
to_____.

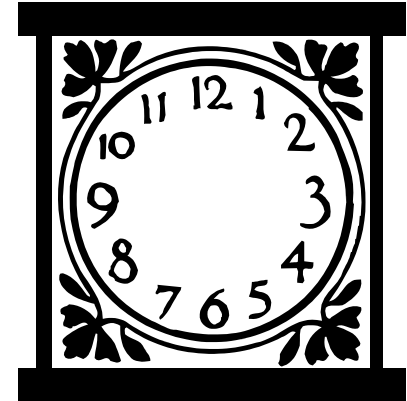

During the middle of the _____, my favorite activity is _____.

At _____, I am ready for _____

_____.

But, _____ I go to sleep I always _____
_____.

The Earth is always turning. It takes ____ hours for day to turn into night. That is called _____.

My Book About Day and Night Checklist

- _____ 1. The cover and dedication page are complete.

- _____ 2. A time word is written in the first blank on every page.

- _____ 3. Sentences are complete and make sense.

- _____ 4. Illustrations are on each page match the word about time written in the blank.

- _____ 5. Big and little hands are drawn in the clock and match the time word on the page. Make sure there are times showing both the hour and half-hour.
