

SIEVE OF ERATOSTHENES

1. When completing the poster, include the title, written neatly and spelled correctly.
2. Create a color key for divisibility by the numbers 2, 3, 5, and 7.
3. Color numbers divisible by 2, except 2, in the appropriate color.
4. Color numbers divisible by 3, except 3, in the appropriate color.
5. Color numbers divisible by 5, except 5, in the appropriate color.
6. Color numbers divisible by 7, except 7, in the appropriate color.
7. If a number is divisible by more than one of these numbers, then it should be colored all of the appropriate colors.
8. The numbers remaining uncolored are the prime numbers from 1 to 100.

COLOR KEY

	Divisible by 2
--	----------------

	Divisible by 3
--	----------------

	Divisible by 5
--	----------------

	Divisible by 7
--	----------------

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
