

# Magic Shapes Worksheet

Directions: Read aloud to students.

Glue a rectangle in the middle of each page. Glue a square underneath the rectangle. Glue a triangle above and on top of the rectangle. Draw a circle above the triangle. Draw a star to the right of the paper. Draw a star to the left of the paper. Color your picture of the space, rocket, moon and stars.

# Magic Shapes Worksheet

Directions: (Read aloud to students.) Cut out each shape above the line and match it to the shape below the line. Glue the shape that you cut out to the correct matching shape. Write the name of the shape under it.

---

Glue the cut-out shapes onto their matching shapes. Write the name of the each shape under it.
