Problem & Solution

Expository Writing Practice

Think back to the activity done in class today. We compared and then contrasted two writing samples. One of the samples was an expository writing sample, and one was a narrative writing sample. With that in mind, write one paragraph comparing and contrasting the two papers reviewed in class. Underline all the words in the paragraph that are taken from the Venn diagram. You are encouraged to use words from the Venn.

Compare and contrast two writing samples.
