

Goldfish:

"A goldfish is a freshwater fish, native to eastern Asia, characteristically having brassy or reddish coloring, and bred in many ornamental forms as an aquarium fish."

Morris, William(Ed.). The American Heritage Dictionary of English Language. New York: American Heritage Publishing, Co., 1970.

NOTE CARDS

Use the following format when taking notes.

Broad topic: _____ Narrow topic: _____ Source Card Number: _____
Paraphrased Notes for Report

<u>SELF CHECK:</u> Ask yourself the following questions after each paraphrase from the original source. This helps to avoid plagiarism. 1. Did you capture the author's message? _____ 2. Did you use your own words and sentence structure? _____ 3. If you copied exactly from the text, are you planning to use the information as a quotation within your paper? _____ If you answered yes to all three, then you have properly paraphrased.

The back of the card should contain:

THE STUDENT'S NAME
DATE
