

Formative Assessment Checklist

MA.E.2.2.1.3.1

The student determines the number of possible combinations of given items and displays them in an organized way (ex. Lists all possible combinations of three shirts and two pairs of shorts).

Directions: Place a check mark in the appropriate box to represent students' level of achievement. If multiple assessments are given, entries should be dated.

| Student | Some possibilities determined | Some possibilities displayed | All possibilities determined | All possibilities displayed | All possibilities determined and displayed |
|---------|-------------------------------|------------------------------|------------------------------|-----------------------------|--|
