

Sample of graphic organizer:

1. Draw a Rock Cycle Graphic Organizer outline or beginning for students to draw on their paper.(using the overhead or board):

The Rock Cycle

2. Explain that rocks don't stay the same; change is a dynamic system. There are 2 types of changes: a rock is being made or it is changing from that rock. This is the process/ the action or the cycle.
3. Students are to read the chapter and record the processes going on in the rock cycle. Drawing in arrows labeled according to the processes at work does this. Give an example:

The Rock Cycle
